

## KCI WORK ON ACTIVITY 3

*Mandated WORKSHOP on workplan activities 3, 4 and 11  
4 – 5 JUNE 2022*

## Activity 3 – overview of the implementation by KCI

---

- “Facilitate the development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders.”
- **Modalities/outputs:**
  1. Input from experts, practitioners and relevant organizations  
→ Discussion at KCI 4.
  2. Technical paper → Finalized at KCI 5.
- **Possible recommendations** for consideration by the forum (Annex III of KCI 5 meeting report) → **to be included in the next KCI annual report (2022) as possible recommendations to the COP, CMP and CMA**

## Activity 3 – recommendations 1/3

---

The recommendations for consideration by the forum:

The KCI recommends to the forum that the COP, CMP, CMA

- a) Request the forum and its KCI to facilitate the enhancement of the capacity of parties particularly developing country parties to develop and use impacts assessment methodologies and tools to carry out their own assessments and analyses of the impacts of RM including, inter alia, on decent work and quality jobs, economic, social, environmental, domestic, cross-border, positive, and negative impacts. This includes facilitating development of case studies as appropriate, and the organization of targeted regional hands-on training workshops for building capacity.

## Activity 3 – recommendations 2/3

---

- b) Request the secretariat to regularly update the existing database of tools and methods suitable for assessing the impacts of implementation of response measures, as needed and as appropriate.
- c) Request the forum and its KCI to develop and maintain a web-based user interface for selecting tools and methods and promote its use among the Parties and stakeholders, as needed and as appropriate. Supporting user manual to guide users through the process of using the interface could be developed.
- d) Encourage Parties to consider the availability of country level expertise, training and support, and consultancy services when selecting a tool or method to assess the impacts of implementation of response measures.

## Activity 3 – recommendations 3/3

---

- e) Encourage Parties to invest in data collection, if possible, then in line with national and international standards (for example, the UN System of National Accounts (SNA) or the UN System of Environmental-Economic Accounting (SEEA).
- f) Encourage Parties to establish capacity building partnerships and networks for increasing the representation of developing countries in the use and development of impact assessment tools and methods to assess the impacts of implementation of response measures.
- g) Encourage Parties to consider both qualitative and quantitative methods to assess impacts of implementation of response measures.
