

Planned or ongoing activities of expert groups to assist implementation of ExCom's workstreams		Status	PoA reference
Slow onset events			
1	Convene three expert meetings to unpack the impacts on livelihoods and implications for critical systems of sea level rise, salinization, glacial retreat and desertification, and for experts to 'pitch' policy and practical solutions: - Desk review and/or targeted stocktaking exercise to complement and/or support the findings from the expert meetings. This will include reviewing special journal issue articles on slow onset events, national adaptation plans, nationally determined contributions, knowledge products under the Nairobi work programme on impacts, vulnerability and adaptation to climate change and work under the WIM.	Planned	SOEs 1
2	Develop scenarios, guidance and/or strategy in relation to the steps necessary to understand and plan for practical action and policy responses to the impacts and implications unpacked under activity 1: - At the regional, national and community level; - Taking into account the full spectrum of the climate risk management process: impact assessment and identification of options for reducing negative impacts; practical solutions to manage risks; assessment of capacity gaps and needs; identification of resources, including finance, for implementing solutions; - Possibly using a case study approach.	Planned	SOEs 2
3	Provide technical advice and support to developing countries on integrating consideration of impacts associated with slow onset events and applicable responses into national planning and policymaking processes, taking into account regional particularities, traditional knowledge and local practices.	Planned	SOEs 3
Non-economic losses			
4	Collect information, on a rolling basis, on available tools for assessing non-economic losses and update the technical paper on non-economic losses (in collaboration with other WIM expert groups)	Ongoing	NELs 1)
5	Produce synthesis products on tools, including lessons learned, best practices and information gaps, for assessing non-economic losses as part of the awareness-raising, outreach and support strategy, including by building on existing information needs assessments as well as conducting new ones	Planned	NELs 2)
6	Develop and continually update a set of key messages on the WIM, loss and damage and noneconomic losses based on the updated technical paper under activity 1 above (in collaboration with other WIM expert groups)	Planned	NELs 3)
7	Develop, and regularly disseminate, targeted outreach and awareness-raising material tailored to the needs of different stakeholders profiled at the global, regional, subregional and local level, building on the key messages developed under activity 3 above (in collaboration with other WIM expert groups and partners and possibly to be reviewed by peers and stakeholders)	Planned	NELs 4)
8	Map potential partners working on non-economic losses and engage in relevant activities under the plan of action (in collaboration with other WIM expert groups, as appropriate)	Planned	NELs 5)

9	Scope and prioritize regional/national events and mobilize partners to collaborate with the expert group in using these events to identify and address capacity and support needs of developing countries in relation to assessing and addressing non-economic losses, building on gaps identified under activities 1 and 2 above (in collaboration with other WIM expert groups, as appropriate)	Planned	NELs 6)
10	Form a small working group jointly with the TFD to outline the guidelines and produce a draft for consideration by the expert group, the TFD and, where appropriate, the Executive Committee, and finalize for subsequent dissemination	Planned	NELs 7)
11	Define topics on a rolling basis, as appropriate, develop an outline of the technical guides of the expert group and, subject to clearance by the Executive Committee, finalize the guides for production and dissemination	Planned	NELs 8)
12	Produce at least one guide per year on topics endorsed by the Executive Committee	Planned	NELs 9)
13	Develop recommendations for the Executive Committee on the basis of the results of the implementation of the expert group's activities and its deliverables	Planned	NELs 10)
Comprehensive risk management approaches			
14	Develop a NAP database, tagging CRM approaches and lessons learned in different countries	Ongoing	TEG-CRM 2a A.4
15	Capture and share lessons learned from the NAP Global Network's regional peer learning summit for the Pacific on linking community assessment with the NAP process	Ongoing	TEG-CRM 2a A.5
16	Identify how artificial intelligence can help in further developing CRM approaches (including regulatory frameworks)	Ongoing	TEG-CRM 2d D.4
17	Prepare a synthesis paper on insights from the TEG-CRM subgroup's activities in 2019 and 2020, including recommendations on knowledge gaps and, where relevant, research questions	Ongoing	TEG-CRM 5a, b, c D.1
Displacement			
18	Prepare a technical briefing on approaches to averting, minimizing and addressing loss and damage in relation to disaster displacement	Ongoing	TFD 5
19	Provide capacity- building opportunities using relevant training materials on migration, environment and climate change	Ongoing	TFD 12
20	Support Parties in integrating displacement risk into DRR strategies and combining action on DRR and climate change	Ongoing	TFD 14
21	Support Parties in strengthening their understanding of preparedness for displacement related to the adverse impacts of climate change, including early warning systems, contingency planning, evacuation planning and resilience-building strategies and plans, and support them in developing innovative approaches to preparedness, for example forecast- based financing	Ongoing	TFD 15
22	Help to make available supplementary guidelines on integrating human mobility into relevant national planning processes, including the process to formulate and implement NAPs, as appropriate	Ongoing	TFD 16
23	Organize (a) training/awareness- building workshop(s) for youth on displacement in the context of climate change	Planned	TFD 19

24	Continue engaging with relevant stakeholders	Ongoing	TFD 22
Action and Support, including finance, technology and capacity-building			
25	Activities referred to in paragraph 37 of decision 2/CMA.2: Executive Committee to further engage and strengthen its dialogue with the SCF by providing input in line with decision 2/CP.19, paragraph 5(c)(ii), to the SCF when, in accordance with its mandate, it provides information, recommendations and draft guidance relating to the operating entities of the Financial Mechanism under the Convention and the Paris Agreement, as appropriate	Ongoing	ASEG a.1)
26	Activities referred to in paragraph 39 of decision 2/CMA.2: Executive Committee, in collaboration with the GCF, as an operating entity of the Financial Mechanism, to clarify how developing country Parties may access funding from the GCF for the development of funding proposals related to the strategic workstreams of the five-year rolling workplan of the Executive Committee, consistently with paragraph 38 of that decision, and to include information thereon in its annual reports	Ongoing	ASEG a.2)
27	Collection, compilation and dissemination of information on available sources of support under and outside the Convention and the Paris Agreement for activities relevant to averting, minimizing and addressing loss and damage in developing country Parties	Planned	ASEG b)
28	Collaboration with the thematic expert groups of the Executive Committee to undertake the work referred to in paragraph 26 of decision 2/CMA.2: the Executive Committee and its thematic expert groups to develop technical guides within their work in their respective thematic areas, avoiding duplication of work across workstreams	Planned	ASEG c)
29	Collaboration with relevant bodies and organizations under and outside the Convention and the Paris Agreement pursuant to decision 2/CP.19, paragraph 5(c)(iii)	Planned	ASEG d)
30	Organization of events in conjunction with relevant meetings and conferences, including the NAP Expo and regional events, to share information and experience relating to accessing available sources of support for averting, minimizing and addressing loss and damage associated with the adverse effects of climate change, in collaboration with relevant constituted bodies and organizations under and outside the Convention and the Paris Agreement, as appropriate	Planned	ASEG e)
31	Analysis and identification of enabling conditions for effective implementation of risk transfer facilities and social protection schemes in the context of comprehensive risk management, as appropriate	Planned	ASEG f)
32	Development of recommendations for the Executive Committee for consideration by Parties	Planned
