CDM Executive Board workplan 2021

Version 04.0

United Nations
Framework Convention on
Climate Change

COVER NOTE

1. Procedural background

1. The CDM Executive Board (hereinafter referred to as the Board) at its 109th meeting approved the workplan of the Board for 2021 and requested the secretariat to include in future versions of the workplan any new mandates arising from meetings and to provide an update on the status of work at each meeting.
2. This work is in line with the requests of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP) to the Board to continue its work to further improve the consistency, efficiency and transparency of its decision-making.

2. Purpose

3. The workplan of the Board for 2021 provides an overview of the issues to be considered by the Board at each meeting during the year. This allows the Board to plan its work throughout the year, ensuring a balanced workload and an efficient use of meeting time.

3. Key issues and proposed solutions

4. Changes to the previous version of the workplan are highlighted and the rationale for changes is also provided in the document.
5. Information is provided on the type of products the Board will consider at each meeting, indicating those products that will undergo panel consultation and/or calls for public input. Regular updates on certain areas of work are proposed in between meetings, in order to alleviate the agenda of the meetings of the Board.
6. This version of the updated workplan also includes a column for 2022, listing items originally planned for EB112, which have been deferred to next year.

4. Impacts

7. The regular review and updating of the workplan will ensure efficiency and transparency of the decision-making process and facilitate the management of the Board's workload.

5. Proposed work and timelines

8. The secretariat includes any new mandates arising from the meetings and provides an update on the status of work at each meeting of the Board.

6. Recommendations to the Board

9. The secretariat recommends that the Board take note of the updated workplan and provide comments, as appropriate.
