

	CDM: Response form for Request for revision of approved methodologies (version 01.1)	
<i>Date of Meth Panel meeting:</i>	3 - 7 November 2008	
<i>Title and number of Request for revision</i>	Consideration of existing units' electricity generation in the baseline AM_REV_0122	
<u>Summary of the query:</u> Please use the space below to summarize the request for revision on the related approved methodologies.		
<p>The revision in ACM0002-ver 7 is proposed to make corrections in emission reduction calculations in case this methodology is applied to projects that increase the generation capacity at an existing hydropower generation facility when the existing units continue to operate and the configuration permits their generation to be measured separately.</p> <p>It is proposed that equation 9 is changed to ensure that the estimation of the baseline power generation is conservative and avoids overestimation of CERs of the project activity.</p>		
<u>Recommendation by the Meth Panel:</u>		
(a) Please use the space below to provide amendments /changes (in your expert view, if necessary).		
The Meth Panel is of the opinion that corrections suggested by project proponents ensure conservativeness and therefore <u>accepts</u> the request for revision.		
(b) Please use the space below for providing guidance, as per Para 93 of EB25 Report, on what type of projects need to revise the PDD as a consequence of the suggested revision, if the recommendation is to revise the methodology.		
Not applicable.		
<u>Answer to authors of the request for revision by the Meth Panel :</u>		
Please use the space below to provide an answer to the authors of the above query		
As above.		

Signature of Meth Panel Chair

Date: 07/11/2008

(Akihiro Kuroki)

Signature of Meth Panel Vice-Chair

Date: 07/11/2008

(Philip Gwage)

Information to be completed by the secretariat

F-CDM-AM	AM_REV_0122
Name of the authors of the query:	DNV
Date when the form was received at UNFCCC secretariat	7 November 2008
Date of transmission to the EB	7 November 2008
Date of posting in the UNFCCC CDM web site	7 November 2008
