

CDM: Recommendation Form for Small Scale Methodologies (version 01)

(To be used for presenting questions/proposals/amendments to the simplified methodologies for small-scale CDM project activity categories)

<i>Date of SSC WG meeting:</i>	19 - 21 September 2007
<i>Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):</i>	Revision of AMS III.E to include mechanical/thermal treatment as alternative technology/measure
<i>Indicative methodology to which your submission relates (refer the items of Appendix B of the Simplified Modalities and Procedures), if applicable.</i>	AMS III.E
<i>Name of the authors of the query:</i>	Susan Braatz, Olman Serrano Institution: FAO of the UN Olman.Serrano@fao.org , Susan.Braatz@fao.org , franziska.Haupt@fao.org
Summary of the query:	
Please use the space below to summarize the query related to SSC methodologies/categories SSC Modalities and Procedures provide recommendation/analysis of the SSC WG.	
<p>The proposal refers to the possibility that biomass residues from sawmill operations (sawdust) are left to decay under clearly anaerobic conditions causing methane emissions. Sawdust can be processed through pelletization to produce a fuel to be delivered for controlled combustion and therefore avoiding methane emissions. It is suggested to revise AMS III.E to include mechanical/thermal treatment (e.g. pelletisation) as a technology/measure as currently AMS III.E is only applicable if the organic residue is controlled combusted.</p>	
Recommendation by the SSC WG :	
Please use the space below to provide amendments/change (in your expert view, if necessary).	
<p>Please refer to Paragraph 15 of the meeting report of the SSC WG 12 (http://cdm.unfccc.int/Panels/ssc_wg).</p>	
Answer to authors of query by the SSC WG :	
Please use the space below to provide answer to the authors of the above query	
<p>The small scale-working group of the CDM Executive Board would like to thank the author for the submission.</p> <p>The SSC WG noted that the submission has implemented the recommendations by the SSC WG 10. The working group agreed to recommend a revision to AMS III.E to expand the applicability of the methodology to include mechanical/thermal treatment (e.g. pelletisation) and gasification taking into account the relevant sections of approved methodology AM0025.</p>	

Signature of SSC WG Chair

(Ulrika Raab)

Date: 21/09/2007

Signature of SSC WG Vice-Chair

(Richard Muyungi)

Date: 21/09/2007

Information to be completed by the secretariat

SSC-Submission number	SSC_119
Date when the form was received at UNFCCC secretariat	21 September 2007
Date of transmission to the EB	21 September 2007
Date of posting in the UNFCCC CDM web site	21 September 2007
